Method Statement

Use of Hazer / Smoke Machine

- On arrival at venue check with venue manager as to whether the venue has smoke detectors that need isolating and ensure that any detectors have been isolated before using any smoke/haze machine in the venue. If there is any doubt run the show without the use of smoke/haze.
- Only use recommended fluids in smoke / haze machines.
- Keep area around units clear, the output nozzle is usually hot.
- Check that the use of smoke/haze will not affect any of the artists.
- If a problem arises during the performance with a member of the audience cease the use of any smoke/haze for the remainder of the performance.
